- **Helps meet OSHA requirements**
- **Reduces product damage and injuries**

CARRON NET CO., INC.

has a qualified support team ready to assist you with all your Industrial Netting needs.

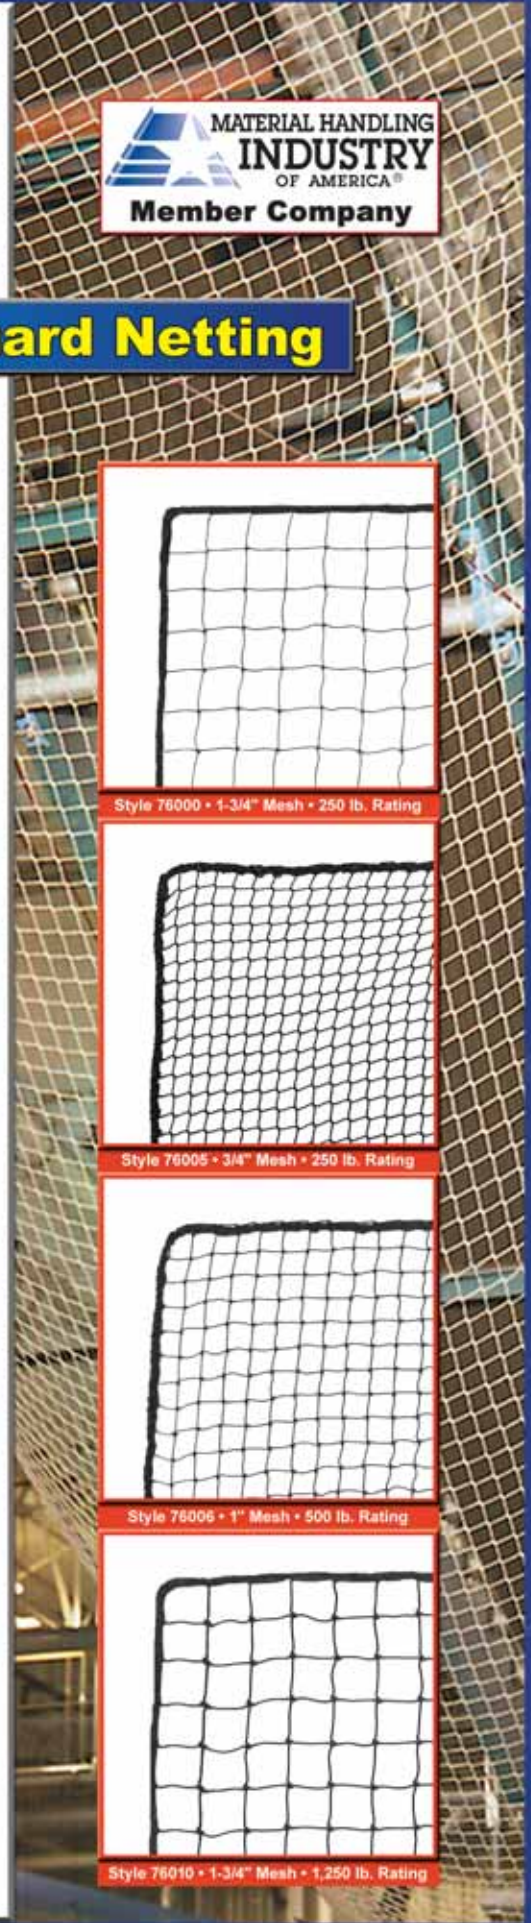

CARRON Industrial Conveyor Guard Netting

Whether your conveyor system is overhead or located at ground level, you'll find Industrial Catch Nets from the Carron Net Company to be the simple solution to protecting your employees and saving products from damage or loss. They are designed to be cost-efficient and to help you meet conveyor safety requirements under OSHA 1926.555.

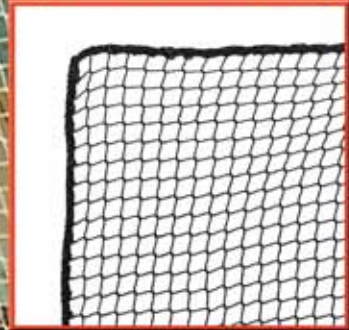

- Reduce costly downtime. Protect employees. Minimize product damage.
- Lightweight and cost-effective. Easy, fast installation to a simple framework. Nearly maintenance-free when compared to heavy metal grids.
- Custom-made Carron Conveyor Safety Nets are easy to modify as your conveyor configurations change, saving costs and labor.

Conveyor Guard Application and Selector Guide

If . . .	Order . . .	Here's Why . . .
You are looking for light duty, general purpose conveyor protection.	Style 76000	The 1-3/4" nylon mesh is designed for loads up to 250 lbs. Excellent for barriers and conveyor turns and entries.
You need light weight, extra small item retention.	Style 76005	Use this 250 lb. rated 3/4" mesh where small parts retention is critical.
You need flexible protection for lines carrying items of multiple sizes, shapes and weights.	Style 76006	An ideal strength-to-weight ratio. With 1" nylon mesh, this is our most versatile conveyor guard net. Rated up to 500 lbs.
You need employee protection from overhead conveyor travel of large or heavy items.	Style 76010	For heavy loads up to 1,250 lbs. The 1-3/4" mesh is ideal where overhead protection is needed.

Style 76000 • 1-3/4" Mesh • 250 lb. Rating

Style 76005 • 3/4" Mesh • 250 lb. Rating

Style 76006 • 1" Mesh • 500 lb. Rating

Style 76010 • 1-3/4" Mesh • 1,250 lb. Rating

CARRON Industrial Rack Guard Netting

Industrial Netting from the Carron Net Company can help you reduce costly product damage and greatly enhance employee safety. Designed specifically for storage areas and pallet rack installations, Carron Industrial Nets, when properly installed, prevent products from falling off racks and mezzanines. They can also help you meet workplace safety requirements under OSHA 1926.250.

- Made from strong 100% nylon mesh. Heavy weight protection. Longer service life.
- Easy, lightweight installation. Can be attached directly to balcony railings or mounted on rack uprights. Save on installation time and costs.
- Made to your custom specifications in our factory in Two Rivers, Wisconsin. Top quality and on-time delivery.

Rack Guard Application and Selector Guide

If . . .

You need general duty protection for hand-stacked loads or lighter weight objects.

Your products or cartons are small.

You need to protect large, heavy objects or standard pallet loads.

You have extra heavy products or full bound pallets.

Order . . .

Style 76015

Style 76010

Style 76025

Style 76020

Here's Why . . .

Ideal for balconies and racks where loads do not exceed 600 lbs. 4" nylon mesh provides an excellent strength-to-cost value.

The tough 1-3/4" nylon mesh is rated to 1,250 lbs. The smaller mesh size adds more pass-through security.

Strong 4" nylon mesh provides protection up to 2,500 lbs. A warehouse favorite.

Extra heavy-duty 2-1/2" nylon mesh is rated for loads up to 5,000 lbs. Perfect for rack aisle protection.

Style 76015 • 4" Mesh • 600 lb. Rating

Style 76020 • 2-1/2" Mesh • 5,000 lb. Rating

Style 76025 • 4" Mesh • 2,500 lb. Rating
